CHAPTER SEVEN
WATER AND SEWER

ARTICLE 1 - Utility Established

7.101 Water and Sewer Department Established

There is hereby established and created within the City a department to be known as the City Water and Sewer Department. The department shall have general charge of all plants, systems, works, instrumentalities, equipment, materials, supplies, sewage disposal plants, lagoons, intercepting sewer, trunk connections, sewer and water mains, filtration works, pumping stations and all parts and appurtenances of the foregoing which are used or useful in connection with the collection, treatment and disposal of sewage, waste and storm sewers for the inhabitants of this City, subject to all ordinances, rules and regulations.

7.102 City Water and Sewer Department to be Independent Agency

All of the business affairs of the said City Water and Sewer Department shall be conducted, insofar as is possible within the ordinances of the City, as a completely separate and distinct division of the City. Separate and distinct accounts shall be set up on the books of the city auditor. These accounts shall at all times reflect the true condition of the Water and Sewer Department, as distinct from the remaining business of the City and shall be so devised as to disclose the annual profit or loss of the department. The funds of the department shall be held in the custody of the city auditor and disbursed upon warrant in the same manner as other funds, but the Water and Sewer Department shall be given credit upon the books of the City for any and all funds paid by it into the City Treasury and shall be charged on the books of the City with all payments made by the City on its behalf. Transfers from the Water and Sewer Department to the General Fund or any other fund of the City shall not be made except upon order of the governing body (Source: North Dakota Century Code Section 40-33-12) nor shall transfer be made from City funds to the Water and Sewer Department without like order. Where bonds have now been, or may hereafter be issued against any water works improvement or sewage improvement, which constitute a general obligation of the City, the taxes levied for the payment of such bonds and interest shall be levied and expended for such purpose in the manner provided by law, until such time as it may be possible out of the proceeds of the Water and Sewer Department, after setting up a reasonable reserve for depreciation and new construction, to make payment of the bond requirements from the profits of the Water and Sewer Department. It is expressly declared to be the purpose of this ordinance that as soon as the same can be accomplished without undue burden to the water users of this City, the Water and Sewer Department shall be placed upon an entirely independent basis as a separate business enterprise.

7.103 Scope of Utility

The properties of the City Water and Sewer Department and all future improvements, extensions and enlargements thereof, together with all cash and other assets held in the City's Water and Sewer Utility Fund and all moneys to be derived thereafter from the services, facilities, products and by-products of said utility, shall be and are hereby appropriated and dedicated to the purpose of insuring the public health, safety and welfare by furnishing and making available water and sewerage service to the City and its inhabitants and industries. Said utility shall at all times be under the management and control of the governing body of the City and shall by it be operated and maintained in such manner as to provide its service with maximum efficiency and at the minimum cost which is compatible with the plan of operation herein described.

7.104 Service Charges - Use of

The City Water and Sewer Department shall at all times be so operated and maintained, and rates and charges for its services, facilities, products and by-products shall be such, as to make the utility self-supporting and self-perpetuating. Such charges from time to time imposed and collected shall be made and kept adequate to pay as incurred all costs of operation and maintenance of said utility and to establish and

maintain reasonable operating reserves; to produce net revenues which shall be sufficient at all times to pay promptly the principal and interest due on all obligations of the City incurred for the improvement, extension and enlargement of said utility, to the extent that such obligations are according to their terms payable from said net revenues, and to establish and maintain adequate reserves for the security of said obligations. Charges may be set to produce surplus net revenues, over and above current principal, interest and reserve requirements, in amounts sufficient to provide reasonable allowances for depreciation and replacement of the utility plus a reasonable return on the City's capital investment therein which surplus net revenues, when actually on hand, and to the extent that they are not required as a reserve for depreciation and replacement, may from time to time be appropriated by the governing board to pay or contribute to the cost of any other City functions, subject to the limitations now or hereafter prescribed by law.

The foregoing appropriations shall not, however, be deemed or construed to preclude the City from defraying any part or all of the expense of any improvement, enlargement or extension of the water and sewer utility by the levy of special assessments or taxes or the issuance of general obligation bonds, whenever and to the extent that such action is authorized in the manner provided by law and is deemed fair and equitable by the governing body.

7.105 Policy on Improvements - Extensions

It is hereby declared to be the policy of the City, subject to such modifications as shall be deemed by the governing body to be required by special circumstances in individual cases, and subject to such modifications as may hereafter be made by ordinance amendatory hereof or supplemental hereto, that the cost of capital improvements, enlargements and extensions of said utility shall be paid in the following manner:

1. Where water mains not exceeding six inches or sanitary sewer mains not exceeding eight inches in diameter are installed adjacent to residential properties, and where water mains not exceeding eight inches or sewer mains not exceeding ten inches in diameter are installed adjacent to commercial properties, the total cost thereof shall be assessed against the properties abutting on such improvements, in sums proportionate to and not exceeding the total benefits determined to be derived therefrom by the respective properties. Water and sewer mains of the dimensions above described are referred to herein as "lateral" mains and other mains are referred to as "trunk" mains.
2. Where a trunk main is installed, the governing body upon advice of the city engineer shall estimate the probable cost of construction of a lateral main at the same time and place and such estimated cost shall be assessed against the properties abutting on such main and in the manner above provided.
3. Twenty percent (20%) of the cost of any sanitary sewer in excess of the estimated cost of a lateral sewer at the same time and place shall be assessed against all properties determined by the governing body to require the immediate construction of such main as a trunk sewer, including properties abutting thereon and properties served or capable of being served by lateral sewers connected thereto, in amounts proportionate to and not exceeding the benefits determined to be derived by said respective properties from such trunk sewer.
4. The total cost of storm sewers shall be assessed against properties within the area determined to be benefitted thereby, in amounts proportionate to and not exceeding the benefits determined to be derived therefrom by the respective properties.
5. Where a portion of the benefits of any of the foregoing improvements is deemed to accrue primarily to the City at large, a portion not exceeding twenty percent (20%) of the cost thereof, as determined by the governing body, may be paid by the levy of ad valorem taxes upon all property within the City over the same period as the levies of assessments for such improvements, or any

portion or all of such cost may be paid out of current funds duly provided in the budget, or from the proceeds of general obligation bonds duly authorized by the electors.

6. Such portion of the cost of any improvement, extension or addition to the utility as is not paid by special assessments and taxes levied and actually collected in respect thereof shall be paid from the net revenues of the utility.
7. Where due to any error or omissions or to any special circumstances a special assessment is not levied against any property benefitted by an improvement at the time of the construction thereof in accordance with the program described in this section, the City reserves the right to levy a supplemental special assessment upon such property or to impose and collect a special charge for the connection of such property with the utility system in such amount as shall be required to pay its just share of the assessable cost of such improvement.

7.106 Utility Fund - Separate Accounts

All moneys received by the City in respect of the services, facilities, products and by-products furnished and made available by the City Water and Sewer Department, except collections of special assessments and taxes appropriated to improvement district funds and moneys borrowed for capital improvements, and all money, receipt and returns received from any investments of such earnings, shall be paid into the treasure of the City and kept in a special fund which shall be permanently maintained on the books of the City, separate and distinct from other funds, and designated as the Water and Sewer Utility Fund. In the records of this fund, all receipts and disbursements of money on account of or in connection with the utility shall be entered and reflected; but the moneys from time to time on hand therein shall always constitute public municipal funds and shall be deposited and their safekeeping secured like other City funds. Separate accounts within the Water and Sewer Utility Fund shall be permanently maintained for the purpose of segregating the revenues required to meet the several expenses and obligations of the utility, as provided below, and such revenues shall be administered and accounted for as follows:

1. Operation and Maintenance Account. There shall be credited at least once in each calendar month to the Operation and Maintenance Account of said fund, as a first lien and charge on the gross revenues of the utility such sum as shall be needed, over and above any credit balance then held therein, to pay all claims due which by accepted accounting practices constitute normal, reasonable and current expenses of operation and maintenance of the utility, and to pay such expenses estimated to accrue for a period of approximately one month, and to maintain a reasonable reserve for contingencies. Moneys in said account shall be used only to pay expenses of the foregoing type, and not for repairs or replacements or for capital improvements properly chargeable to replacement and depreciation reserves or surplus funds.
2. Principal and Interest Account. The Principal and Interest Account of any Fund, created by any resolution adopted by the City Council, shall continue to be maintained as provided in that resolution until the payment in full of the improvement warrants issued against said fund.
3. Revenue Bond Account. The net revenues of the utility are herein defined as the aggregate of all sums on hand in the Water and Sewer Utility Fund from time to time in excess of the current requirements defined in (1) and (2) above. The entirety of the said net revenues shall be credited each month to the Revenue Bond Account of the Water and Sewer Fund until there shall have been credited within said account, and thereafter so much of the net revenues as shall be necessary to maintain at all times, a reserve in an amount at least equal to the sum of the principal and interest payments due within each next succeeding twelve-month period upon all revenue bonds of the City heretofore or hereafter issued and made payable from said accounts. After this reserve has been created, there shall continue to be credited out of the net

revenues to the Revenue Bond Account each month, over and above sums required to maintain such reserve, an amount not less than one-twelfth (1/12) of the sum of the principal and interest to become due on all such revenue bonds within the then next succeeding twelve months. Moneys in said account shall be used only for the payment of principal and interest as it becomes due on said revenue bonds, and the reserve shall be used for such purpose only when other moneys in the account are insufficient. All revenue bonds heretofore and hereafter issued and made payable from said account, subject to the limitations upon such issuance contained in Section (6) hereof, shall constitute a first lien and charge on the net revenues of said utility without preference or priority of one bond over any other. However, if at any time the moneys in the Revenue Bond Account should be insufficient to make all payments of principal and interest due on such revenue bonds, and cannot be made sufficient by transfer of moneys from the other accounts described below, the moneys available shall be first used to pay interest then accrued on all bonds payable from said account, and any excess moneys available shall be used to pay matured principal of such bonds in order of their maturity dates, provided that moneys available for payment of bonds maturing on the same date shall be prorated equally among such bonds.

4. Improvement Warrant Account. There shall also be maintained in said fund an Improvement Warrant Account, for the purpose of segregating net revenues required for the payment of any portion of the cost of improvements hereafter instituted, for which such revenues have been pledged in accordance with the provisions of Chapter 40-22 of the North Dakota Century Code. There shall be transferred from said account as required, to the fund of each improvement district for which such pledge has been made, sums sufficient, together with tax and assessment collections held in such funds, to pay when due the principal and interest on all improvement warrants drawn upon such funds for the financing of such improvements. Moneys sufficient for the requirements of said improvement district funds shall be credited and paid into the Improvement Warrant Account out of the net revenues remaining from time to time after provision for the current requirements of the Revenue Bond Account, and the lien and charge on said net revenues in favor improvement warrants for the payment of which such pledges have been made shall be subordinate only to the lien and charge on said net revenues in favor of revenue bonds payable from the Revenue Bond Account. In the event that moneys in the Improvement Warrant Account shall be insufficient for the making of all transfers required to be made to the several improvement district funds to which such pledges have been made, and cannot be made sufficient by the transfer of funds from the remaining accounts described below, the available moneys shall be apportioned first to the several improvement district funds in sums sufficient to pay interest then accrued on all warrants drawn on such district funds, and any remainder shall be applied in payment of matured principal of such warrants in order of the maturity dates thereof. As among warrants maturing on the same date, such available moneys shall be applied to the warrants of the several issues in proportion to the matured principal amount thereof for the payment of which taxes and assessments in the respective improvement funds are insufficient.

5. Replacement and Depreciation Account. There shall be maintained a Replacement and Depreciation Account, into which there shall be credited and paid as received, except as otherwise stated below, all net revenues in excess of the current requirements of the other accounts above described. In said account there shall be maintained such balances as the governing body shall from time to time determine to constitute an adequate reserve for depreciation and replacement of the utility, which reserve may be used to redeem prior to maturity obligations payable from the net revenues as and when the same become pre-payable according to their terms, or to replace worn out or obsolete properties of the utility, or to make extensions, enlargements or improvements thereto. Any moneys in said account determined to be surplus to the immediate requirements therefore may be invested or may be transferred to other City funds in the discretion of the Board, in the manner and subject to the

limitations set forth in Section 40-33-12 of the North Dakota Century Code; and any acts amendatory thereof or supplemental thereto.

6. Moneys on Hand. The moneys on hand in any of the accounts of the Water and Sewer Utility Fund shall at all times be available and shall be used to the extent necessary to restore any deficiency in the funds on hand in any of the preceding accounts, in the order listed above, for the fulfillment of the requirements of such preceding accounts as herein defined.

7. Additional Accounts. The City also reserves the right to create additional accounts within the Water and Sewer Utility Fund for the purpose of segregating any surplus net revenues which may be pledged and appropriated to the payment of obligations hereafter issued to finance improvements, enlargements or extensions of said utility, other than the obligations made payable from the Revenue Bond Account and the Improvement Warrant Account, pursuant to the authority for such issuance reserved in Section 7.0107 hereof. Moneys on hand in any such account shall at all times be available for and used to the extent necessary to meet the current requirements of all of the foregoing accounts except the Replacement and Depreciation Account.

7.107 Provisions for Financing Capital Improvements

In borrowing money for capital improvements, extensions or additions to said utility the following provisions shall at all times be observed:

1. For the purpose of this section, whenever the net revenues of the utility herein above appropriated to the Improvement Warrant Account are pledged to pay a portion of the cost of any improvement to be financed by improvement warrants, such warrants and the interest accruing thereon shall be deemed to be payable from said net revenues in the same proportion as that part of the cost payable from said net revenues bears to the principal amount of such warrants. The portion of costs payable from net revenues shall be deemed equal to the principal amount of the warrants less the principal amount of the taxes and assessments agreed to be levied for the payment thereof.

2. Except as provided in parts (3) and (4) below, no obligations shall be issued and made payable from the Revenue Bond Account or the Improvement Warrant Account at any time unless the net revenues of the utility, as defined in Section 7.0106 (3) hereof, received during the then next preceding fiscal year, shall have been in an aggregate amount at least equal to 125% of the average annual principal and interest payments due on all bonds payable from the Revenue Bond Account which are then outstanding or then to be issued, plus such percentage of the average of the annual principal and interest payments due on each issue of improvement warrants then outstanding or then to be issued as shall be payable from said net revenues, which averages shall be computed on the basis of the principal and interest payments due in the fiscal years of the then remaining term of all such revenue bonds and improvement warrants then outstanding. For the purpose of such computation, whenever rates for water and sewerage service have been changed in the course of any fiscal year, the net revenues for such year shall be deemed to be those which would have been received if such amended rates had been in effect during the entirety of such year, based upon the actual quantities of service furnished to each class of customers and the actual expenses of the utility during such year; provided that in no case shall the net revenues so computed be deemed to exceed 125% of the net revenues actually received during such year.

3. Refunding revenue bonds may be issued for the purpose of prepaying and refunding bonds payable from the Revenue Bond Account when and as they become pre-payable according to their terms, in the manner and to the extent permitted by law, provided that such refunding revenue bonds shall be subject to the requirements set forth in part (2) hereof, as applied to

the past net revenues and future principal and interest requirements as of the date of the issuance of such refunding revenue bonds. However, the City shall and does hereby also reserve the right and privilege of issuing refunding revenue bonds, when permitted by law, for the maturities of any bonds payable from the Revenue Bond Account which have matured and for the payment of which the moneys in the Revenue Bond Account are insufficient, and cannot be made sufficient by transfer of moneys from other accounts, and such refunding revenue bonds shall be payable from the Revenue Bond Account on a parity as to interest with all then outstanding bonds payable therefrom, but the maturities of such refunding revenue bonds shall be subsequent to the maturities of all such outstanding bonds. Nothing herein shall be deemed to require the holder of any revenue bond to accept a refunding revenue bond in exchange therefore.

4. The City also reserves the right and privilege of issuing refunding improvement warrants in the manner and to the extent provided in Chapter 40-27 of the North Dakota Century Code and acts amendatory thereof and supplemental thereto. The lien and charge of such refunding warrants on the net revenues appropriated to the Improvement Warrant Account shall be the same as that in favor of the improvement warrants refunded thereby; provided that for the purpose of the computations directed to be made in this section, the maturities and the rate or rates of interest payable on such refunding warrants shall be substituted for the maturities and interest rates of the improvement warrants refunded thereby.
5. Nothing herein shall be deemed to affect the obligation of the City, under the laws of the State of North Dakota, to levy ad valorem taxes upon all taxable property within its corporate limits for the purpose of paying a deficiency, if any, in the fund of any improvement district, at the time of the maturity of the last warrant drawn thereon, or at such earlier time as may be hereafter directed by such laws; provided that it shall be the policy of the City that the amounts of any deficiency tax levies so made shall be restored to the general funds of the City out of any surplus net revenues thereafter received, over and above the requirements of the several accounts of the Water and Sewer Utility Fund as stated in Section 7.0106 hereof.
6. Except as hereinbefore authorized, no obligation of any kind shall be issued and made payable from said net revenues unless the lien thereof is expressly made subordinate and junior to the lien and charge on said net revenues in favor of all revenue bonds and improvement warrants payable from the Revenue Bond Account and the Improvement Warrant Account.

7.108 Agreements with Bond and Warrant Purchasers

The City shall and does hereby covenant and agree with the original purchaser and each holder from time to time of each bond or warrant issued and made payable from the Revenue Bond Account or the Improvement Warrant Account, as follows:

1. It will complete all improvements financed by the issuance of such obligations with due diligence and with the greatest economy consistent with good workmanship and efficient results, and will do so without creating or permitting the creation of any liens or encumbrances on said utility or on the revenues thereof other than the liens and charges of said revenues expressly authorized in this article.
2. As long as any obligations payable from said accounts are outstanding, it will continue to own and operate said utility as a municipal utility, free from all competitions as to the services thereby provided and in good and efficient operating condition.
3. It will at all times maintain a schedule of rates, charges and rentals for all services, facilities, commodities and benefits furnished by said utility and will impose and collect the same in amounts at least sufficient to make the minimum payments into the respective accounts of the

Water and Sewer Utility Fund as specified in Section 7.0106 hereof, and will revise such schedules in such manner and as often as needed to perform this covenant.

4. Under each such schedule, the City shall be obligated to pay and will pay from its other funds to the Water and Sewer Utility Fund a fair and equitable amount for any and all services, facilities, commodities and benefits furnished to the City or any of its departments by the utility.
5. It will at all times maintain books of account adequate to show all receipts and disbursements of the City respecting the utility, and application of such receipts to the purposes of the several accounts described in Section 7.0106 hereof, which books of account shall be open to inspection by the holder of any obligation payable from the Revenue Bond Account or the Improvement Warrant Account at any reasonable time. The City will furnish a certified transcript therefrom of any information which any such bond or warrant holder may request, upon payment of a reasonable fee therefore.
6. It will cause the annual financial statement of the City required by the provisions of Section 40-16-05 of the North Dakota Century Code to include a statement as to the financial condition and the receipts and disbursements of the Water and Sewer Utility Fund and of its several accounts during each fiscal year, and will furnish a copy of such statement to the original purchaser of each issue of bonds or warrants upon request.
7. Upon written demand of the holder of twenty percent (20%) or more of the bonds or warrants of any issue payable from the Revenue Bond Account or Improvement Warrant Account and then outstanding, it will cause an audit of the books of account of the utility to be made by a certified public accountant satisfactory to the holders of such obligations, the cost thereof to be paid as an operating expense of the utility and will furnish a copy of the report of any such audit to such party as shall be designated in such demand.
8. It will at all times keep the properties of said utility insured in reasonable amounts against loss or damage by fire, tornado and other risks for which similar properties are customarily insured by prudent owners, and will carry adequate public liability insurance, insuring against any claim of personal injury or property damage which is or may become a charge against the revenues of the utility. The City will also cause all persons handling funds of the utility to be bonded in suitable amounts for the protection of the City and the holders of obligations of the utility, and the expense of all such insurance and bonds shall be accounted for as an operating cost of the utility. The City will use the proceeds of any such insurance and bonds to restore the loss or damage compensated thereby.
9. The City and its governing body and each and all of its officers will punctually perform all duties with reference to said utility and the revenues thereof and the obligations issued hereunder which are imposed by the ordinances and resolutions of the City in force on the date upon which any such obligations are issued. All provisions of the Constitution and laws and of such ordinances and resolutions which are provide security for the holders of bonds issued hereunder are acknowledged to be a part of the City=s contract with the holders of such obligations; provided that nothing herein shall be deemed to preclude the City from modifying the policies set forth in Section 7.0105 hereof with reference to any improvements constructed and financed after the effective date of such modification.
10. The holders of twenty percent (20%) or more in principal amount of each issue of bonds or warrants payable from the Revenue Bond Account or the Improvement Warrant Account and at the time outstanding shall be privileged, and are hereby empowered, to institute and maintain, on behalf of the holders of all outstanding obligations of the same issue, any suit or proceeding at law or in equity for the protection and enforcement of any covenant, agreement or stipulation herein provided to be performed or observed by the City or its governing body or any of its

officers, whether or not any such obligations are then in default as to principal and interest. Each and all of the rights and remedies provided by Sections 40-35-15 and 40-35-19 of the North Dakota Century Code are hereby acknowledged to be available to the holders of such obligations.

The size, slope alignment, materials of construction of all sanitary sewers including building sewers, and the methods to be used in excavating, placing of the pipe, jointing, testing and backfilling the trench, shall all conform to the requirements of the building and plumbing code or other applicable rules and regulations of the City. In the absence of suitable code provisions, specifications of the state building and plumbing codes shall apply.

8. No person shall make connection of roof downspouts, foundation drains, areaway drains or other sources of surface runoff or groundwater to a building sewer, or building drain which in turn is connected directly or indirectly to a public sanitary sewer unless such connection is approved by the superintendent and the North Dakota State Department of Health.

All such connections shall be made gastight and watertight and verified by proper testing. Any deviation from the prescribed procedures and materials must be approved by the superintendent before installation.
10. The applicant for the building sewer permit shall notify the superintendent when the building sewer is ready for inspection and connection to the public sewer. The connection and testing shall be made under the supervision of the superintendent or his representative.
11. All excavations for building sewer installation shall be adequately guarded with barricades and lights so as to protect the public from hazard. Streets, sidewalks, parkways and other public property disturbed in the course of the work shall be restored in a manner satisfactory to the City.

7.306 Use of Public Sewers

1. No person shall discharge or cause to be discharged any unpolluted waters such as storm water, surface water, groundwater, roof runoff, subsurface drainage or cooling water to any building drain or sewer which in turn is connected directly or indirectly to the sanitary sewer unless such connection is approved by the superintendent and the North Dakota State Department of Health.
2. Storm water other than that exempted under Section 7.0306 (1) and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as combined sewers or storm sewers, or to a natural outlet approved by the superintendent and the North Dakota State Department of Health.
3. No person shall discharge or cause to be discharged any of the following described water or wastes to any public sewers:
 - a. Any gasoline, benzene, naphtha, fuel oil or other flammable or explosive liquid, solid or gas.
 - b. Any waters containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the wastewater treatment plant.

- c. Any waters or wastes having a pH lower than 5.5, or having any other corrosive property capable of causing damage or hazard to structures, equipment and personnel of the wastewater works.
 - d. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers or other interference with the proper operation of the wastewater facilities such as, but not limited to ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshing, entrails and paper dishes, cups, milk containers, etc. either whole or ground by garbage grinders.
4. The following described substances, materials, waters or waste shall be limited in discharges to city systems to concentrations or quantities which will not harm either the sewers, wastewater treatment process or equipment, will not have an adverse effect on the receiving stream, or will not otherwise endanger lives, limb, and public property or constitute a nuisance. The superintendent may set limitations lower than the limitations established in the regulations below if in his opinion such more severe limitations are necessary to meet the above objectives. In forming his opinion as to the acceptability, the superintendent will give consideration to such factors as the quantity of subject waste in relation to flows and velocities in the sewers, materials of construction of the sewers, the wastewater treatment process employed, capacity of the wastewater treatment plant, degree of treatability of the waste in the wastewater treatment plant and other pertinent factors. The limitations or restrictions on materials or characteristics of waste or wastewaters discharged to the sanitary sewer which shall not be violated without approval of the superintendent are as follows:
- a. Wastewater having a temperature higher than 150 degrees Fahrenheit (65 degrees Celsius).
 - b. Wastewater containing more than 25 milligrams per liter of petroleum oil, non-biodegradable cutting oils or product of mineral oil origin.

 - e. Any waters or wastes containing iron, chromium, copper, zinc and similar objectionable or toxic substances to such degree that any such material received in the composite wastewater at the wastewater treatment works exceeds the limits established by the superintendent for such materials.
 - f. Any waters or wastes containing odor-producing substances exceeding limits which may be established by the superintendent.
 - g. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the superintendent in compliance with applicable state or federal regulations.
 - h. Quantities of flow, concentrations or both which constitute a *slug* as defined herein.

- i. Waters or wastes containing substances which are not amenable to treatment or reduction by the wastewater treatment processes employed, or is amenable to treatment only to such a degree that the wastewater treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.
 - j. Any water or wastes which, by interaction with other water or wastes in the public sewer system, release obnoxious gases, forms suspended solids which interfere with the collection system or create a condition deleterious to structures and treatment processes.
5. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in 7.0306 (4), and which in the judgment of the superintendent, may have a deleterious effect upon the wastewater facilities, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the superintendent may:
- a. Reject the wastes;
 - b. Require pretreatment to an acceptable condition for discharge to the public sewers;
 - c. Require control over the quantities and rates of discharge; and/or
 - d. Require payment to cover the added costs of handling and treating the wastes not covered by sewer charges under the provisions of 7.0306 (11).

If the superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the superintendent and the North Dakota State Department of Health.

6. Grease, oil and sand interceptors shall be provided when, in the opinion of the superintendent, they are necessary for the proper handling of liquid wastes containing floatable grease in excessive amounts as specified in 7.0306 (4) (c), or any flammable wastes, sand or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the North Dakota Plumbing Code and shall be located as to be readily and easily accessible for cleaning and inspection. In the maintaining of these interceptors the owner shall be responsible for the proper removal and disposal by appropriate means of the captivated material and shall maintain records of the dates, and means of disposal which are subject to review by the superintendent. Any removal and having of the collected materials not performed by owner personnel must be performed by currently licensed waste disposal firms.
7. Where pretreatment or flow-equalizing facilities are provided or required by any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.
8. When required by the superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable structure together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling and measurement of the wastes. Such structures, when required, shall be accessibly and safely located and shall be constructed in accordance with plans approved by the superintendent. The structure shall be installed by the owner at his expense and shall be maintained by the owner so as to be safe and accessible at all times.

9. The superintendent may require a use of sewer services to provide information needed to determine compliance with this ordinance. These requirements may include:
 - a. Wastewaters discharge peak rate and volume over a specified time period.

All measurement, test and analysis of the characteristics of waters and wastes to which reference is made in this ordinance shall be determined in accordance with the latest edition of "Standard Methods for the Examination of Water and Wastewater", published by the American Public Health Association. Sampling methods, location, times, durations and frequencies are to be determined on an individual basis by the superintendent.
11. No statement contained in this section shall be construed as preventing any special agreement or arrangement between the City and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the City for treatment.

7.307 Damage to Sewer Works Prohibited

No person shall maliciously, willfully or negligently break damage, destroy, uncover, deface or tamper with any structure, appurtenance or equipment which is a part of the wastewater facilities. Any person violating this provision shall be subject to immediate arrest under charge of disorderly conduct.

7.308 Powers and Authority of Inspectors

1. The superintendent and other duly authorized employees of the City bearing proper credentials and identification shall be permitted to enter all properties for the purposes of inspection, observation, measurement, sampling and testing pertinent to discharge to the community system in accordance with the provisions of this ordinance.
2. The superintendent or other duly authorized employees are authorized to obtain information concerning industrial processes that have a direct bearing on the kind and source of discharge to the wastewater collection system. The industry may withhold information considered confidential. The industry must establish that the revelation to the public of the information in question might result in an advantage to competitors.
3. While performing the necessary work on private properties referred to in Section 7.0308 (1), above, the superintendent or duly authorized employees of the City shall observe all safety

rules applicable to the premises established by the company, and the company shall be held harmless for injury or death to the City employees, and the City shall indemnify the company against loss or damage to its property by City employees and against liability claims and demands for personal injury or property damage asserted against the company growing out of the gauging and sampling operation, except such as may be caused by negligence or failure of the company to maintain safe conditions as required in Section 7.0306 (8).

4. The superintendent and other duly authorized employees of the City bearing proper credentials and identification shall be permitted to enter all private properties through which the City holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair and maintenance of any portion of the wastewater facilities lying within said easement. All entry and subsequent work, if any, on said easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

7.309 Hearing Board

1.A hearing board, consisting of City Council, shall be selected as needed for arbitration of differences between the superintendent and sewer users on matters concerning interpretation and execution of the provisions of this ordinance by the superintendent.

7.310 Penalties

1. Any person found to be violating any provision of this ordinance except Section 7.0307 shall be served by the City with written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations.
2. Any person who shall continue any violation beyond the time limit provided for in Section 7.0310 (1), shall be guilty of a misdemeanor, and on conviction thereof shall be fined in the amount not exceeding one thousand dollars (\$1,000.00) for each violation. Each day in which any such violation shall continue shall be deemed a separate offense.
3. Any person violating any of the provisions of this ordinance shall become liable to the City for any expense, loss or damage occasioned the City by reason of such violation.

7.311 Validity

All ordinances or parts of ordinances in conflict herewith are hereby repealed.

The validity of any section, clause, sentence or provision of this ordinance shall not affect the validity of any other part of this ordinance which can be given effect without such invalid part or parts.

ARTICLE 4 - Sewer Surcharge

7.401 Purpose

1. The purpose of this article shall be to generate sufficient revenue to pay all costs for the operation and maintenance of the complete wastewater system. The costs shall be distributed to all users of the wastewater system in proportion to each user=s contribution to the total loading of the treatment works. Factors such as strength (BOD and TSS), volume and delivery flow rate characteristics shall be considered and included as the basis for the user=s

each contribution to ensure a proportional distribution of operation and maintenance costs to user.

2. The definitions set forth in Section 7.0302 of this chapter shall also apply to this article.

7.402 Determining the Total Annual Cost of Operation and Maintenance

The City or the city engineer shall determine the total annual costs of operation and maintenance of the wastewater system which are necessary to maintain the capacity and performance, during the service life of the treatment works, for which such works are designed and constructed. The total annual cost of operation and maintenance shall include, but need not be limited to, labor, repairs, equipment replacement, maintenance, necessary modifications, power, sampling, laboratory tests and a reasonable contingency fund.

7.403 Determining Each User's Wastewater Contribution Percentage

The City or the city engineer shall determine for each user's average daily volume of wastewater, which has been discharged to the wastewater system, which shall then be divided by the average daily volume of all wastewater discharged to the wastewater system, to determine such user's volume contribution percentage. The amount used as the total average daily volume of wastewater shall exclude infiltration and inflow. The City or the city engineer shall determine each user's average daily poundage of 5-day 20-degree Centigrade biochemical oxygen demand which has been discharged to the wastewater system which shall then be divided by the average daily poundage of all 5-day 20-degree Centigrade biochemical oxygen demand discharged to the wastewater system to determine each user's Biochemical oxygen demand contribution percentage.

The City or the superintendent or city engineer shall determine each user's average daily poundage of suspended solids that has been discharged to the wastewater system which shall then be divided by the average daily poundage of all suspended solids discharged to the wastewater system, to determine such user's suspended solids contribution percentage. Each user's volume contribution percentage, biochemical oxygen demand contribution percentage and suspended solids contribution percentage shall be multiplied by the annual operation and maintenance costs for the total volume, the total 5-day 20-degree Centigrade biochemical oxygen demand and the total suspended solids for the wastewater system, respectively.

7.404 Determining a Surcharge System for Users with Above Normal Volume, BOD and TSS

The City or the city engineer will determine the average total suspended solids (TSS) and biochemical oxygen demand (BOD) daily loadings for the average residential user and residential user class. The City will assess a surcharge rate for all non-residential users discharging wastes with volume, BOD and TSS strengths greater than the average residential user. Such users will be assessed a surcharge sufficient to cover the costs of treating such users above-normal strength wastes and/or volume. Normal strength wastes are considered to be 200 mg/1 BOD and 250 mg/1TSS.

7.405 Surcharge Rate Schedule for Above Normal Volume of Wastes

Residential users are considered to be one class of user and are hereby levied a charge of the current going rate per month.

7.406 Surcharge Rate Schedule for Above Normal Strength Wastes

Any non-residential user with BOD and TSS greater than the average residential user's strength will pay a surcharge in accordance with the rates determined by the City or its engineer.

7.409 Review of Each User's Wastewater Service Charge

The City shall review the total annual cost of operation and maintenance as well as each user's wastewater contribution percentage on an annual basis and will revise the system as necessary to assure equity of the service charge system established herein and to assure that sufficient funds are obtained to adequately operate and maintain the wastewater system. If a significant user, such as an industry, has completed in-plant modifications which would change that user's wastewater contribution percentages, the user can present at a regularly scheduled meeting of the governing body such factual information and the City shall determine if the user's wastewater contribution percentages are to be changed. The City shall notify the user of its findings as soon as possible.

7.410 Wastes Prohibited from Being Discharged to the Wastewater System

The discharge of any waters containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any wastewater treatment process or to constitute a hazard in the receiving waters of the wastewater treatment plan is hereby prohibited.

ARTICLE 5 - Adoption of State Plumbing Code

7.501 Adoption

To promote the protect the public health there is hereby adopted the State Plumbing Code, which has been adopted by the State Plumbing Board and approved by the State Health Department, consisting of rules and regulations governing plumbing work, and the whole thereof, of which not less than on (1) copy is on file in the office of the city auditor, and the same is hereby adopted as fully as if set out at length herein and all plumbing work in the City shall comply with said code.

7.502 Plumbing Code - Enforcement of Provisions

All plumbing work and all private sanitary drains and cesspools now existing, or hereafter to be installed, altered or repaired in any building or in or under any private property within the corporate limits shall be under the supervision and regulation of the superintendent of the water and sewer department, whose duty it shall be to enforce all the provisions of this code relating thereto and from time to time to make such rules and regulations as may be appropriate for the execution of the same.

7.503 Plumbing Code - Changes in Existing Installations

The superintendent of the water and sewer department is hereby given authority to order the repair, alteration or removal of any sanitary sewer connection or plumbing, any connection to storm water sewer, or any private sanitary drain, cesspool or privy, which in his judgment is so installed or is in such condition as to be unsanitary, or to constitute a public nuisance or menace to health. In case of such repair, alteration or removal, if the plumbing code is not observed and connections not properly executed by the owner or owners thereof, in accordance with his directions, he may cause the same to be discontinued from any source of water supply. It shall thereafter be unlawful for any person in any manner to use any such installation, or to supply water thereto, until the same shall have been put in a safe and sanitary condition according to his direction.

7.504 Plumbing Code - New Installations

All plumbing work and all excavations in the public streets or alleys, the cutting and replacing of pavement, laying of water and sewer connections and connections to storm water sewers and all construction of private sanitary drains and cesspools within the corporate limits shall be undertaken and executed only by a master plumber or other persons as have obtained a general license for such work together with a permit for each separate job, provided that the tapping of water mains and the placing of corporate cocks therein shall be done only under the direction of city employees.

ARTICLE 6 - General Penalty Provision

7.601 Penalty for Violation of Chapter

Any person, firm or corporation violating any of the provisions of this chapter shall be guilty of an infraction and, upon conviction thereof by a court of competent jurisdiction, shall be subject to a fine of not exceeding five hundred dollars (\$500.00) for each violation.

"Race" means the use of one or more vehicles in an attempt to out gain, outdistance, or to arrive at a given distance ahead of another vehicle or vehicles; or the use of one or more vehicles to willfully prevent another vehicle from passing the facing vehicle or vehicles, or to test the physical stamina or endurance of the persons driving the vehicles over a long distance driving route.

Nothing in this section shall be construed as prohibiting drag racing, exhibition driving, or similar events when carried out in an organized manner on a track or other privately owned area specifically set aside and used solely for such purposes by drivers of motor vehicles, including snowmobiles.

9.508 Radar Evidence in Speed Violations

The provisions of North Dakota Century Code Section 39-03-15 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

The speed of any motor vehicle may be checked by the use of radio microwaves or other electrical device. The results of such checks shall be accepted a prima facie evidence of the speed of such motor vehicle in any court or legal proceedings where the speed of the motor vehicle is at issue. The driver of any such motor vehicle may be arrested without a warrant under this section, provided the arresting officer is in uniform or displays the officer=s badge of authority; provided that such officer has observed the record of the device, or has received a radio message from the officer who observed the speed of the motor vehicle recorded by the radio microwaves or other electrical device.

2. Left turns. The driver of a vehicle intending to turn left shall approach the turn in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle. Whenever practicable, the left turn must be made to the left of the center of the intersection and so as to leave the intersection in the extreme left-hand lane lawfully available to traffic moving in the same direction as such vehicle on the roadway being entered;
3. The City may cause official traffic-control devices to be placed and thereby require and direct that a different course from that specified in this section be traveled by turning vehicles, and when such devices are so placed, no driver of a vehicle may turn other than as directed and required by such devices.

9.702 Through Streets Designated

The following streets and parts of streets are hereby declared to be through streets for the purpose of this chapter:

§County Road

9.703 Signs

2. Except when directed to proceed by a police officer, every driver of a vehicle approaching a stop sign shall stop at a clearly marked stop line, or if none, then at the point nearest the intersection roadway where the driver has a view of approaching traffic on the intersection roadway before entering it. After having stopped, the driver shall yield the right-of-way to any vehicle in the intersection or approaching on another roadway so closely as to constitute an immediate hazard during the time when such driver is moving across or within the intersection or junction of roadways.

3. The driver of a vehicle approaching a yield sign shall in obedience to such sign slow down to a speed reasonable for the existing conditions and, if required for safety to stop, shall stop at a clearly marked stop sign, or, if none, before entering the crosswalk on the near side of the intersection or, if none, then at the point nearest the intersection roadway where the driver has a view of approaching traffic on the intersection roadway before entering it. After slowing or stopping, the driver shall yield the right-of-way to any vehicle in the intersection or approaching on another roadway so closely as to constitute an immediate hazard during the time such driver is moving across or within the intersection or junction of roadways. Provided, however, that if the driver is involved in a collision with a vehicle in the intersection or junction of roadways after driving past a yield sign without stopping, such collision shall be deemed prima facie evidence of his failure to yield the right-of-way.
4. Every stop sign and every yield sign shall be erected as near as practicable to the nearest line of the crosswalk on the near side of the intersection or, if there is no crosswalk, then as near as practicable to the nearest line of the intersecting roadway.
5. Except when directed to proceed by a police officer or traffic control sign, every driver of a vehicle approaching a stop intersection indicated by a stop sign shall stop before entering the crosswalk on the near side of the intersection or, in the event there is no crosswalk, shall stop at a clearly marked stop line, but if none, then at the point nearest the intersection roadway where the driver has a view of approaching traffic on the intersecting roadway.
6. The driver of a vehicle approaching a yield sign if required for safety to stop shall stop before entering the crosswalk on the near side of the intersection or, in the event there is no crosswalk, at a clearly marked stop line, but if none, then at a point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway.

9.705 Emerging from Alley or Driveway

The driver of a vehicle emerging from an alley, driveway, private road or building with a business or residential district shall stop such vehicle immediately prior to driving on to the sidewalk or on to the sidewalk area extending across such alley, building entrance, road or driveway, or in the event there is no sidewalk area, shall stop at the point nearest the street to be entered when the driver has a view of approaching traffic thereon. The driver shall yield the right-of-way to any pedestrian as may be necessary to avoid collision and upon entering the roadway shall yield the right-of-way to all vehicles approaching on said roadway. (Source: North Dakota Century Code Section 39-10-45)

Whenever any person driving a vehicle approaches a railroad grade crossing under any of the circumstances stated in this section, the driver of such vehicle shall stop within fifty (50) feet (15.24 meters) but not less than fifteen (15) feet (4.57 meters) from the nearest rail of such railroad, and shall not proceed until he can do so safely. The foregoing requirements shall apply when:
 - a. A clearly visible electric or mechanical signal device gives warning of the immediate approach of a railroad train;
 - b. A crossing gate is lowered or when a human flagman gives or continues to give a signal of the approach or passage of a railroad train;
 - c. A railroad train approaching within approximately one thousand three hundred twenty (1,320) feet (402.34 meters) of the highway crossing emits a signal audible from such distance and such railroad train, by reason of its speed or nearness to such crossing, is an immediate hazard; or
 - d. An approaching railroad train is plainly visible and is in hazardous proximity to such crossing.
2. No person shall drive any vehicle through, around or under any crossing gate or barrier at a railroad crossing while such gate or barrier is closed or is being opened or closed. No person shall drive any vehicle past any human flagman at a railroad crossing until the flagman signals that the way is clear to proceed.

 - a. When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;
 - b. When an obstruction exists making it necessary to drive to the left of the center of the highway; provided, any person so doing shall yield the right-of-way to all vehicles traveling in the proper direction upon the unobstructed portion of the highway within such distance as to constitute an immediate hazard;
 - c. Upon a roadway divided into three marked lanes for traffic under the rules applicable thereon; or
2. Upon all roadways any vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven in the right-hand lane then available for traffic, or as close as practicable to the right-hand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn in an intersection or into a private road or driveway.
3. Upon any roadway having four or more lanes for moving traffic and providing for two-way movement of traffic, no vehicle shall be driven to the left of the center line of the roadway, except when authorized by official traffic-control devices designating certain lanes to the left side of the center of the roadway for use by traffic not otherwise permitted to use such lanes, or except as permitted under subdivision b of subsection 1 hereof. However, this subsection shall not be construed as prohibiting the crossing of the center line in making a left turn into or from an alley, private road, or driveway.

The provisions of North Dakota Century Code Section 39-10-09 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and upon roadways having width for not more than one line of traffic in each direction each driver shall give to the other at least one-half of the main-traveled portion of the roadway as nearly as possible.

9.908 Overtaking a Vehicle on the Left

The provisions of North Dakota Century Code Section 39-10-11 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

The following rules shall govern the overtaking and passing of vehicles proceeding in the same direction, subject to those limitations, exceptions, and special rules hereinafter stated;

1. The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left thereof at a safe distance and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle.
2. Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of his vehicle until completely passed by the overtaking vehicle.

9.909 When Overtaking on the Right is Permitted

The provisions of North Dakota Century Code Section 39-10-12 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

1. The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:
 - a. When the vehicle overtaken is making or about to make a left turn; or
 - b. Upon a roadway with unobstructed pavement of sufficient width for two or more lines of vehicles moving lawfully in the direction being traveled by the overtaking vehicle.
2. The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting such movement in safety. Such movement may not be made by driving off the roadway.

9.910 Limitations on Overtaking on the Left

The provisions of North Dakota Century Code Section 39-10-13 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

No vehicle may be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event the overtaking vehicle must return to an authorized lane of travel as soon as

practicable, and in the event the passing movement involves the use of a lane authorized for vehicles approaching from the opposite direction, before coming within two hundred feet of any approaching vehicle.

9.911 Further Limitations on Driving on Left of Center of Roadway

The provisions of North Dakota Century Code Section 39-10-14 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

1. No vehicle shall be driven to the left side of the roadway under the following conditions:
 - a. When approaching or upon the crest of a grade or a curve in the highway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction;
 - b. When approaching within one hundred (100) feet of or traversing any intersection or railroad grade crossing; or
 - c. When the view is obstructed upon approaching within one hundred (100) feet of any bridge, viaduct or tunnel.

The foregoing limitations shall not apply upon a one-way roadway, nor under the conditions described in 9.0906 nor to the driver of a vehicle turning left into or from an alley, private road or driveway.

9.912 No-Passing Zones

The provisions of North Dakota Century Code Section 39-10-15 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

1. The director of the North Dakota Department of Transportation and local authorities are hereby authorized to determine those portions of any highway under their respective jurisdiction where overtaking and passing or driving on the left side of the roadway would be especially hazardous and may by appropriate signs or markings on the roadway indicate the beginning and end of such zones and when such signs or markings are in place and clearly visible to an ordinarily observant person, every driver of a vehicle shall obey the directions thereof.
2. Where signs or markings are in place to define a no-passing zone as set forth in subsection 1, no driver shall at any time drive on the left side of the roadway with such no-passing zone or on the left side of any pavement striping designed to mark such no-passing zone throughout its length.
3. This section does not apply under the conditions described in Section 9.0906 nor to the driver of a vehicle turning left into or from an alley, private road or driveway.

9.913 Driving on Roadways Lanes for Traffic

The provisions of North Dakota Century Code Section 39-10-17 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

Whenever any roadway has been divided into two or more clearly marked lanes for traffic, the following rules in addition to all others consistent herewith shall apply:

1. A vehicle must be driven as nearly as practicable entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.
2. Upon a roadway which is divided into three lanes and provides for two-way traffic, a vehicle may not be driven in the center lane except when overtaking and passing another vehicle traveling in the same direction when such center line is clear of traffic within a safe distance, or in preparation for making a left turn or where such center lane is at the time allocated exclusively to traffic moving in the same direction that the vehicle is proceeding and such allocation is designated by official traffic-control devices.
3. Official traffic-control devices may be erected directing specified traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway and drivers of vehicles shall obey the directions of every such device.
4. Official traffic-control devices may be installed prohibiting the changing of lanes on sections of roadway and drivers of vehicles shall obey the directions of every such device.

9.914 Following Too Closely

The provisions of North Dakota Century Code Section 39-10-18 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

1. The driver of a motor vehicle may not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicles and the traffic upon and the condition of the highway.
2. The driver of any truck or motor vehicle drawing another vehicle when traveling upon a roadway outside of a business or residence district and which is following another truck or motor vehicle drawing another vehicle shall, whenever conditions permit leave sufficient space so that an overtaking vehicle may enter and occupy such space without danger, except that this does not prevent a truck or motor vehicle drawing another vehicle from overtaking and passing any vehicle or combination of vehicles.
3. Motor vehicles being driven upon any roadway outside of a business or residence district in a caravan or motorcade whether or not towing other vehicles must be so operated as to allow sufficient space between each such vehicle or combination of vehicles so as to enable any other vehicle to enter and occupy such space without danger. This provision does not apply to funeral processions.

9.915 Driving on Divided Highways

The provisions of North Dakota Century Code Section 39-10-19 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

Whenever any highway has been divided into two or more roadways by leaving an intervening space or by a physical barrier or clearly indicated divided section so construed as to impede vehicular traffic, every vehicle must be driven only upon the right-hand roadway, unless directed or permitted to use another roadway by official traffic-control devices or police officers. No vehicle may be driven over, across or within any such dividing space, barrier or section, except through an opening in such physical barrier or dividing section or space at a crossover or intersection as established by public authority, unless such crossing is specifically prohibited and such prohibition is indicated by appropriate traffic-control devices.

9.916 Restricted Access

The provisions of North Dakota Century Code Section 39-10-20 and all subsequent amendments shall be and are hereby incorporated by reference in this ordinance.

No person may drive a vehicle onto or from any controlled-access roadway except at such entrances and exits as are established by public authority.

Upon an appeal under subsection 5, the court and parties shall follow, to the extent applicable, the North Dakota rules of Civil Procedure. If on the appeal from the finding of the official the finding is affirmed, costs may be assessed at the discretion of the trial judge.
 - 7. As used in Sections 39-06.1-02, 39-06.1-03 and 39.06.1-04 of the North Dakota Century Code, the word "official" means a municipal judge or a magistrate or other qualified person appointed by the presiding judge of the judicial district, to serve as such official for all or a specified part of the judicial district.

13.505 Factors to be Considered in Sentencing

The following factors or the converse thereof where appropriate, while not controlling the discretion of the court, shall be accorded weight in making determinations regarding the desirability of sentencing an offender to imprisonment.

1. The defendant=s criminal conduct neither caused nor threatened serious harm to another person or his property.
2. The defendant did not plan or expect that his criminal conduct would cause or threaten serious harm to another person or his property.
3. The defendant acted under strong provocation.
4. There were substantial grounds which, though insufficient to establish a legal defense, tend to excuse or justify the defendant=s conduct.
5. The victim of the defendant=s conduct induced or facilitated its commission.
6. The defendant has made or will make restitution or reparation to the victim of his conduct for the damage or injury, which was sustained.
7. The defendant has no history of prior delinquency or criminal activity, or has led a law-abiding life for a substantial period of time before the commission of the present offense.
8. The defendant=s conduct was the result of circumstances unlikely to recur.
9. The character, history and attitudes of the defendant indicate that he is unlikely to commit another crime.
10. The defendant is particularly likely to respond affirmatively to probationary treatment.
11. The imprisonment of the defendant would entail undue hardship to himself or his dependents.
12. The defendant is elderly or in poor health.
13. The defendant did not abuse a public position of responsibility or trust.
14. The defendant cooperated with law enforcement authorities by bringing other offenders to justice, otherwise cooperated.

Nothing herein shall be deemed to require explicit reference to these factors in a pre-sentence report or by the court at sentencing. (Source: North Dakota Century Code Section 12.1-32-04).

13.506 Imposition of Fine – Response to Non-Payment

1. The court, in making a determination of the propriety of imposing a sentence to pay a fine, shall consider the following factors:

- a. The ability of the defendant to pay without undue hardship;
 - b. Whether the defendant, other than a defendant organization, gained money or property as a result of commission;
 - c. Whether the sentence to pay a fine will interfere with the defendant=s capacity to make restitution;
 - d. Whether a sentence to pay a fine will serve a valid rehabilitative purpose.
2. The court may allow the defendant to pay any fine or costs imposed in installments. When a defendant is sentenced to pay a fine or costs, the court shall not impose at the same time an alternative sentence to be served in the event that the fine or costs are not paid.
 3. If the defendant does not pay any fine or costs imposed, or make any required partial payment, the courts, upon motion of the prosecuting attorney or on its own motion, may issue an order to show cause why the defendant shows that his default is excusable, the court may, after hearing, commit him to imprisonment until the fine, or costs or both, are fully paid or discharged by labor as provided in North Dakota Century Code Section 40-18-12.

The court may not commit a person under this section when the sole reason for his nonpayment is his indigence. An order of commitment under this subsection shall not be for a period in excess of thirty (30) days. As used in this subsection, Afine@ does not include a fee established pursuant to section 9.2208 of these ordinances. (Source: North Dakota Century Code Section 12.1-32-05 and Section 40-11-12)

13.507 Incidents of Probation

1. Unless terminated as provided in subsection 2, the period during which a sentence to probation shall remain conditional and be subject to revocation is two (2) years.
2. The court may terminate a period of probation and discharge the defendant at any time earlier than that provided in subsection 1 if warranted by the conduct of the defendant and the ends of justice.
3. Notwithstanding the fact that a sentence to probation can subsequently be modified or revoked, a judgment, which includes such a sentence, constitutes a final judgment for all other purposes. (Source: North Dakota Century Code Section 12.1-32-06.1)

13.508 Conditions of Probation – Revocation

1. The conditions of probation must be such, as the court in its discretion deems reasonably necessary to ensure that the defendant will lead a law-abiding life or to assist the defendant to do so. The court shall provide as an explicit condition of every probation that the defendant not commits another offense during the period for which the probation remains subject to revocation.
2. When imposing a sentence to probation, the court may impose such conditions as it deems appropriate, and may include any one or more of the following:

- a. Work faithfully at a suitable employment or faithfully pursue a course of study or of vocational training that will equip the defendant for suitable employment;
- b. Undergo available medical or psychiatric treatment and remain in a specified institution if required for that purpose;
- c. Attend or reside in a facility established for the instruction, recreation or residence of persons on probation;
- d. Support the defendant's dependents and meet other family responsibilities;
- e. Make restitution or reparation to the victim of the defendant's damage or injury, which was sustained, or perform other reasonable assigned work. When restitution, reparation or assigned work is a condition of probation the court shall proceed as provided in 13.509;
- f. Pay a fine imposed after consideration of the provisions of 13.506;
- g. Refrain from excessive use of alcohol, or any use of narcotics or of another dangerous or abusable drug without a prescription.
- h. Permit the probation officer to visit the defendant at reasonable times at the defendant's home or elsewhere.
- i. Remain within the jurisdiction of the court, unless granted permission to leave by the court or the probation officer.
- j. Answer all reasonable inquiries by the probation officer and promptly notify the probation officer of any change in address or employment.
- k. Report to a probation officer at reasonable times as directed by the court or the probation officer.
- l. Submit to a medical examination or other reasonable testing for the purpose of deterring the defendant's use of narcotics, marijuana, or other controlled substance whenever required by a probation officer.
- m. Refrain from associating with known users or traffickers in narcotics, marijuana, or other controlled substances.
- n. Submit the defendant's person, place of residence, or vehicle to search and seizure by a probation officer at any time of the day or night, with or without a search warrant.
- o. Serve a term of imprisonment of up to one-half of the maximum term authorized for the offense of which the defendant was convicted or one year, whichever is less.
- p. Reimburse the costs and expenses determined necessary for the defendant's adequate defense when counsel is appointed for the defendant. When reimbursement of indigent defense costs and expenses is imposed as a condition of probation, the court shall proceed as provided in subsection 3 of section 12.1-32-08.
- q. Provide community service for the number of hours designated by the court.

- r. Refrain from any subscription to, access to, or use of the Internet.
- 3. When a defendant is sentenced to probation, the defendant must be given a certificate explicitly setting forth the conditions on which he is being released.
- 4. The court, upon notice to the probationer may modify or enlarge the conditions of probation at any time prior to the expiration or termination of the period for which the sentence remains conditional. If the defendant violates a condition at any time before the expiration or termination of the period, the court may continue the defendant on the existing probation with or without modifying or enlarging the conditions, or may revoke the probation and impose any other sentence that was available under 13.502 at the time for the initial sentencing.
- 5. Jurisdiction over a probationer may be transferred from the court that imposed the sentence to another court of this state, with the concurrence of both courts. Retransfer of jurisdiction may also occur in the same manner. The court to which jurisdiction has been transferred under this subsection exercise all powers permissible under this chapter over the defendant. (Source: North Dakota Century Code Section 12.1-32-07).

13.509 Restitution or Reparation – Procedures

- 1. Prior to imposing restitution or reparation as a sentence or condition of probation, the court shall hold a hearing on the matter with notice to the prosecuting attorney and to the defendant as to the nature and amount thereof. At or following the hearing, the court shall make determinations as to:
 - a. The reasonable damages sustained by the victim or victims of the criminal offense, which damages must be limited to those directly related to the criminal offense and expenses actually incurred as a direct result of the defendant=s criminal action;
 - b. The ability of the defendant to restore the fruits of the criminal action or to pay monetary reparations, or to otherwise take action to restore the victim=s property;
 - c. The likelihood that attaching a condition relating to restitution or reparation will serve a valid rehabilitation purpose in the case of the particular offender considered.

The court shall fix the amount of restitution or reparation, which may not exceed an amount the defendant can or will be able to pay, and shall fix the manner of performance of any condition or conditions of probation established pursuant to this subsection. Any payments made pursuant to such order must be deducted from damages awarded in a civil action arising from the same incident. An order that a defendant make restitution or reparation as a sentence or condition of probation may, unless the court directs otherwise, be filled, transcribed, and enforced by the person entitled to the restitution or reparation in the same manner as civil judgments rendered by the courts of this state may be enforced.

- 2. The court may order the defendant to perform reasonable assigned work as a condition of probation, which assigned work need not be related to the offense charged, but must not be solely for the benefit of a private individual other than the victim. (Source: North Dakota Century Code Section 12.1-32-08).

13.510 Merger of Sentences – Sentencing for Multiple Offenses

1. Unless the court otherwise orders, when a person serving a term of commitment is committed for another offense or offenses, the shorter term or the shorter remaining term shall be merged in the other term. When a person on probation or parole for an offense committed in this city is sentenced for another offense or offenses, the period still to be served on probation or parole shall be merged in any new sentence of commitment or probation. When the court merges sentences under this subsection it shall forthwith furnish the penal facility in which the defendant is confined under sentence with authenticated copies of its sentence, which shall cite the sentences being merged. If the court has imposed a sentence, which is merged pursuant to this subsection, it shall modify such sentence in accordance with the effect of the merger.
2. A defendant may not be consecutively sentenced to more than one year. (Source: North Dakota Century Code Section 12.1-32-11).

APPENDIX
COMMENTS

Section

1.104 In most cases, the fine or penalty for the violation of City ordinances, regulations, or resolutions shall not exceed one thousand dollars, and the imprisonment shall not exceed thirty days for one offense.

For violation of motor vehicle operating or equipment or traffic regulations, see NDCC 40-05-06; NDCC 39-06.1-05; and NDCC 39-06.1-06.

In 1972, the United States Supreme Court expanded the Sixth Amendment right to counsel of Gideon V. Wainwright to all cases in which the defendant could be imprisoned if found guilty of the charge against. See, Argersinger v. Hamlin, 407 US 25. As a result of this decision, municipalities are now required to provide free legal counsel to all indigent violators of municipal ordinances, if the penalty that can be imposed for such violation is imprisonment.

1.201 The public is entitled to have the City governing body meet at the times specified by statute or by legal ordinance so as to prevent the council or other governing body from doing business in any secret meetings; See, NDCC 40-06-02; NDCC 44-04-19 to 44-04-21.

2.101 Rules of Construction

In the construction of this code and of all ordinances, it is the intention of the drafters that the following rules shall be observed unless such construction would be inconsistent with the manifest intent of the mayor and governing body:

1. General Rule. All words and phrases shall be construed and understood according to the common and approved usage of the language; but technical words and phrases and such others as may have acquired a peculiar and appropriate meaning.

2. Gender B Singular and Plural. Every word in any code provision or ordinance using the masculine gender includes females as well as males; and every work using the singular number only including several persons or things as well as to one person or thing; and every work importing the plural includes the singular, except when a contrary intention plainly appears.

3. Tenses. The use of any verb in the present tense shall include the future when applicable.

4. Joint Authority. All words purporting to give a joint authority to three or more City officers or other persons shall be construed as giving such authority to a majority of such officers or other persons unless it shall be otherwise expressly declared in the law giving the authority.

5. Delegation of Authority. Whenever a provision requires the head of a department or other officer of the City to do some act or perform some duty, it shall be construed to authorize subordinates to do the required act or to perform the required duty unless the terms of the provision designate otherwise.

6. Computation of Time. The time which an act is to be done as provided in any code provision or ordinance or in any order issued pursuant to any ordinance, when expressed in days, shall be computed by excluding the first day and including the last, except that if the first day be a Sunday or a holiday it shall be excluded; and when any such time is expressed in hours the whole of Sunday, from midnight, shall be excluded.

7. Overlapping Provisions. Where any provision of this Code imposes greater restrictions upon the subject matter than any general provisions imposed by this Code, the provision imposing the greater restriction or regulation shall be applicable.

For rules of interpretation as to ordinance construction, refer to NDCC 1-02 et. seq.

3.108 The requirements for sidewalks (length, width and distance) are provided for example only. Local requirements should be utilized when adopting or drafting this ordinance.

4.401 Incorporation by reference of a national fire code is a valid exercise of municipal authority, as long as such incorporation is prospective. For more information about national fire codes, contact the state fire marshal.

8.101 Business license fees established by resolution which is adopted by City Council are imposed as an incident of the municipal police power to protect the health, safety, morals and general welfare of the populace. See NDCC 40-05 et. seq. Such fees are not in and of themselves revenue-raising devices, but rather are regulatory devices to allow for the control of businesses and occupations which have potentially harmful or detrimental effects on the general public.

8.103 and 8.610

The granting or denying of a business license is a discretionary rather than a ministerial act and as such cannot be delegated by the city council.

9.503 An ordinance altering state special limits within a city does not become effective until such speed limits are properly posted as required by NDCC 39-09-03.
