Happy Spring and Summer!

This is a reminder from the Council that the City will be actively enforcing our ordinances during the warm weather months. These ordinances are for safety as well as curbside appeal.

This includes requirements of citizens to keep all property mowed and trimmed in a timely fashion, no abandoned or unlicensed vehicles cluttering up yards and alleyways and ALL pets kept on a leash or contained within their owners' property. We have been getting complaints so please be considerate of your friends and neighbors and their property.

City ordinances also disallow the draining of basements into our sewage system; all sump pumps must be draining out of the building.

Please contact the City Council if you have any questions or concerns. The City Council meets the third Monday of each month at 7:00pm at the Community Center. All citizens are welcome.

The Colfax City Council
